

How will Mauritania's wind power plant affect its energy mix?

The wind power plant in the northern town of Boulenouar will also significantly increase the share of the country's energy mix. The significant share of renewable energy in Mauritania's total energy portfolio is impressive, especially compared to other countries on the continent.

Is Mauritania leading West Africa's green energy transition?

As Mauritania leads in West Africa's green energy transition, significant investment is being made in hydrogen, solar and wind energy developments.

Is Mauritania ready for the largest green hydrogen production project in the world?

Driven by this momentum, the country has signed a memorandum of understanding for the implementation of the largest green hydrogen production project in the world, which Mauritania intends to develop in partnership with CWP Global, an Australian renewable energy development company led by an American founder and CEO.

Will advanced powerplant solutions provide Rotax engine training classes in 2024?

Advanced Powerplant Solutions will not be providing Rotax engine training classes in the Spring of 2024. The next opportunity will likely be in the fall of 2024. Please see [here](#) for a complete list of training facilities, classes and dates.
