

# Avant garde energy India

What is avant garde innovationstm?

Our Goal is to Enable 100% Clean & Affordable Energy for All. The collective challenge before our world is to power over a billion people who are currently underserved. Avant Garde Innovations (TM) is an international startup company established in India, with a 'Green' heart & soul.

Who is avant-garde?

Staying on top of ESG regulatory frameworks to help our clients comply. Incepted in the year 1990 by four technocrats, who have chiselled themselves during their tenure with BHEL, India, Avant-Garde is one of the leading Engineering and Project Management Consultants in India for the process and power industries.

Why should you choose avant-garde?

Avant-Garde's multi-discipline engineering and technology expertise helps deploying waste to energy initiatives. We enhance quality of water for varied applications and facilitate advancements with recycling waste water. The client is a Large Captive Coal Energy Plant in Northern India.

Biomass power plants harness the energy stored in organic materials like wood, agricultural residues, and even waste products. Through controlled combustion or biological processes, these plants convert biomass into heat, which in turn generates electricity. ...
