

Average hybrid solar storage price per 10kW in Ireland

Do hybrid solar panels cost in Ireland?

The cost of hybrid solar panels in Ireland typically depends on system size and battery storage options. The price will include installation, but SEAI grants can reduce the total cost. Is battery storage included in the cost of hybrid solar panels?

How much do 10kW solar panels cost in Ireland?

On average, you can expect the cost of a 10kW solar power system in Ireland to range from EUR10,000 to EUR20,000. However, it's important to note that this is a rough estimate.

How much does a solar system cost in Ireland?

The average cost of a solar panel system in Ireland ranges from EUR4,800 to EUR11,250, depending on: These figures reflect prices after applying the SEAI Solar PV Grant, which currently offers up to EUR1,800 in financial support for residential installations. The Irish government has made solar more affordable than ever:

How much energy does a solar system use in Ireland?

Well, the average Irish household uses around 4,200 kWh of electricity per year. If you really want to get value out of your new solar system, you should aim to cover at least 75% of your energy consumption - meaning that average home would need 8-10 panels, most likely with a 4kW system or higher.

How much does a solar grant cost in Ireland?

The grant can reduce the cost of solar panels in Ireland by 25% or even more, and so it's a gamechanger for a typical family looking to go solar. In 2024, the maximum solar grant amount is EUR1,800, but that will be going down by EUR300 to EUR1,500 at the start of 2025. Find out more in our Irish solar grants guide...

How long do solar panels last in Ireland?

It typically takes around 5-6 years to recoup the cost of solar panels in Ireland. After that, you can enjoy free electricity for the remaining lifespan of your panels. Most solar panels come with a 25-year warranty, so you should be getting renewable energy from your roof for at least that long.
