

Average on grid solar storage price per 20kWh in Ireland

How much does a 20 kWh solar system cost in Ireland?

The average cost of installing a 20 kWh solar system in Ireland can range significantly based on several factors, including the quality of the panels and the complexity of the installation. Generally, homeowners and businesses might expect to invest between EUR28,130,00.

How much do solar panels cost in Ireland?

The cost of solar panels in Ireland And how much can solar save you long term? For a typical household, solar panels cost roughly EUR7,000 to EUR10,000. This takes into account the government grant of up to EUR1,800. Prices vary depending on how many panels you need, whether you're adding a solar storage battery etc.

How much energy does a solar system use in Ireland?

Well, the average Irish household uses around 4,200 kWh of electricity per year. If you really want to get value out of your new solar system, you should aim to cover at least 75% of your energy consumption - meaning that average home would need 8-10 panels, most likely with a 4kW system or higher.

How long do solar panels last in Ireland?

It typically takes around 5-6 years to recoup the cost of solar panels in Ireland. After that, you can enjoy free electricity for the remaining lifespan of your panels. Most solar panels come with a 25-year warranty, so you should be getting renewable energy from your roof for at least that long.

How much does a solar grant cost in Ireland?

The grant can reduce the cost of solar panels in Ireland by 25% or even more, and so it's a gamechanger for a typical family looking to go solar. In 2024, the maximum solar grant amount is EUR1,800, but that will be going down by EUR300 to EUR1,800 at the start of 2025. Find out more in our Irish solar grants guide...
