

Average rooftop solar battery price per 5kW in Ghana

Is it worth installing solar power in Ghana?

Ghana has an average effective sunshine of 5.5 hours daily. As a considerable investment, it's worth evaluating a solar power system for your home before having it installed. Doing your research and seeking professional advice can help you to make an informed decision. Here are a couple of other things to consider before making the change:

How much is the government investing in solar panels in Ghana?

The Ghanaian government, through Volta River Authority (VRA), has so far invested in a solar plant with 2.5 megawatts of power. Additionally, the government has committed GHC200,000.00 for a rooftop solar panel project, aiming to install panels on 200,000 homes.

What are the best solar panels in Ghana?

Polycrystalline (or multi-crystalline) silicon cell based solar panels are now the most popular choice in Ghana's residential installs. There are also Amorphous (or thin-film) silicon cells, which use the least amount of silicon and are not very efficient. For an equivalent wattage, a crystalline panel will be smaller than an amorphous panel.
