

Axxon energy United Arab Emirates

The United Arab Emirates (UAE) is known for its large oil and gas reserves, but since 2006, it has been involved in various unprecedented activities in the renewable energy sector. This makes it an odd case in the renewable energy map, which has been dominated by countries with a completely different energy portfolio.

The majority of the energy produced in the United Arab Emirates is from natural gas and oil. The country is also a major exporter of oil and gas and it started using its strong solar PV potential in 2014 to produce electricity.

Today's top 162 Renewable Energy jobs in United Arab Emirates. Leverage your professional network, and get hired. New Renewable Energy jobs added daily.
