What's new at Belga solar?

With our new name Belga Solar (formerly Evocells), we reaffirm our identity, commitment to quality, sustainability, and innovation. We look forward to guiding you in your solar energy projects. At Belga Solar, we take our environmental responsibility seriously. That's why we have adopted a proactive approach to reducing our carbon footprint.

Why should you choose Belga solar?

Belga Solar offers the most efficient, reliable, and sustainable photovoltaic solution on the market. YEARS! WHY CHOOSE BELGA SOLAR? At Belga Solar, we offer you more than just solar panels; we provide a complete energy solution.

Are solar panels a good choice in Belgium?

We quickly realized that the quality of solar panels available in Belgium was uneven. Faced with this observation, we invested in quality control equipment for solar panels. This led us to seek more reliable and sustainable solutions for our customers. In 2012, we took a major step by becoming manufacturers of photovoltaic panels.

How has Belga solar changed over the years?

Since then, our production capacity has significantly increased, from 2,000 panels in 2012 to over 100,000 panels in the past three years. From a few people in 2012, Belga Solar, formerly Evocells, now employs over 30 people. We have expanded our infrastructure and invested in cutting-edge technologies.
