In 1972, 92% of Denmark's energy consumption came from imported oil. [19] The 1973 oil crisis forced Denmark to rethink its energy policy; in 1978 coal contributed 18%, and the Tvind wind turbine was built, along with the creation of a wind turbine industry. [20] The 1979 energy crisis pushed further change, and in 1984 the North Sea natural gas projects began. [21]

BlueNord, formerly Norwegian Energy Company ASA ("Noreco"), completed the transformational acquisition of Shell's upstream assets in Denmark in 2019. As a result of this transaction, BlueNord established itself as a material ...
