

How much energy does Azerbaijan need?

Azerbaijan's energy demand (measured as total energy supply [TES]) was 16.1 million tonnes of oil equivalent (Mtoe) in 2022 (according to preliminary data from the State Statistical Committee). Azerbaijan is a major producer of crude oil (32.7 Mt including natural gas liquids in 2022) and of natural gas (35.0 bcm in 2022).

Will BP's new oil production facility boost Azerbaijan's earnings?

BP's new oil production facility in Azerbaijan's Azeri-Chirag-Gunashli oil field promises to boost the country's earnings and help meet its gas supply commitments.

Will gas and oil flow from Azerbaijan to Poland?

He said that "gas and oil alike will flow... from Azerbaijan also to Poland. They will flow via Azerbaijan where the transportation corridors that are currently under construction constitute and will constitute the elements" of China's Belt and Road Initiative.

Is oil price volatility affecting Azerbaijan?

Azerbaijan has undergone significant economic transformation since gaining independence in 1991, with its large oil and gas reserves driving strong growth in the 1990s and 2000s. However, its heavy dependence on extractive industries has left Azerbaijan exposed to the negative effects of oil price volatility.

How much oil did Azerbaijan produce during WW2?

During that first year of the war, Azerbaijan produced 25.4 million tonnes of oil - a record. By the Decree of the Supreme Soviet of the USSR in February 1942, the commitment of more than 500 workers and employees of the oil industry of Azerbaijan was recognized by the giving of orders and medals of the USSR.

Why did women leave the oil industry in Azerbaijan?

By the Decree of the Supreme Soviet of the USSR in February 1942, the commitment of more than 500 workers and employees of the oil industry of Azerbaijan was recognized by the giving of orders and medals of the USSR. By the end of the year, so many engineers and oil workers had left for the war front that positions had to be filled by women.

The spotlight is on Azerbaijan as the small petrostate in the South Caucasus hosts the U.N.'s biggest climate conference. Diplomats from across the world will descend on the capital Baku for the annual climate summit, known as COP29, to discuss how to avoid increasing threats from climate change in a place that was one of the birthplaces of the oil industry.
