

Centrica energy storage limited Sierra Leone

What does Centrica Energy Storage do?

A key element of the infrastructure area of the Centrica family, Centrica Energy Storage operates the Easington onshore gas processing terminal in East Yorkshire and restarted gas storage operations at the Rough facility in the Southern North Sea in 2022, with a view to bolstering the UK's energy security and helping to reduce consumer bills.

What is Centrica Storage Limited?

The long term aim for Centrica Storage Limited is to turn Rough into the largest long duration energy storage facility in Europe, capable of storing both natural gas and hydrogen with the goal of bolstering the UK's energy security. Formerly Centrica Storage Limited (CSL), we have recently changed our name to signify a change in ambition.

Who are Centrica Energy Storage Limited (CES+)?

Centrica Energy Storage Limited (CES+) are part of the infrastructure area of the Centrica family.

The market for battery energy storage is estimated to grow to \$10.84bn in 2026. The fall in battery technology prices and the increasing need for grid stability are just two reasons GlobalData have predicted for this growth, with the integration of renewable power holding significant sway over the power market.

Greg McKenna, managing director of Centrica Business Solutions, said: "Solar will play an increasingly important role in the UK as we strive for a net zero energy system. We're proud to be leading the charge in delivering a bank of assets across the UK that will help meet the need for clean energy generation and storage."
