How do I secure debt for Bess & hybrid projects?

Securing debt for BESS and hybrid projects requires a "bankable" revenue forecast from lenders preferred consultants. Developers need their own flexible modelling tools to optimise project design and achieve more favourable financing terms.

What are the risks associated with Bess projects in the Nordics?

However, several fundamental risk parameters specific to BESS projects in the Nordics needs to be addressed by the project owners. These include natural catastrophe (NatCat) risks from extreme weather, such as heavy snowfall, storms, or flooding that can damage installations and allow water to reach batteries, which must remain dry.

How can Bess obtain contracted revenue?

BESS can obtain contracted revenue through: This means that project modelling software used by developers should be able to incorporate these kinds of commercial structures. It is important to note that the lenders will look closely at the capacity of the off-takers to pay for the contract.

Is the Bess offtake contract market growing in Europe?

The market for BESS offtake contracts in Europe is still relatively nascent and illiquid relative to the mature RES PPA market. However conditions are improving quickly as BESS growth gathers pace. A key theme in BESS offtake contract evolution across Europe is an increased focus on downside protection after 2023-24 revenue decline.

How has the Bess revenue environment changed over the last 12 months?

A tougher BESS revenue environment across the last 12 months has seen more selective lending from banks, with an increased focus on downside risk. However lending momentum remains strong for the right projects & platforms, with attractive loan to value ratios available as well as merchant financing.

What is the gap between merchant Bess & hybrid projects?

As merchant BESS and hybrid projects become increasingly prevalent, the gap between developers using sophisticated modelling platforms and those relying on consultant-only or basic internal models will only widen.
