Unlike other countries where people make a living from selling clean energy, in Cuba those who install solar panels essentially seek energy self-sufficiency, that is, to have electric power even during blackouts.

Tron was created by Lester Gray after moving to Illinois with little money, a lot of determination and one big vision to make solar affordable and efficient in Chicagoland. After a quick establishment as a leader in the solar field, Tron's office slowly grew out of Lester's basement and into a rapidly growing 44-person staffed office.
