As the DR Congo has experienced a severe energy crisis, the paper analyzes its energy policy. It examines the Grand Inga hydropower project, including the Inga 3 dam. The Inga 3 dam's development is confronted with political, geostrategic, and financial challenges, notably the suspension of the World Bank's funding in 2016.

It will provide on-site investigation, design drawings, solar energy storage system solutions, transportation of goods, assist you to import solar energy storage system, installation services, and continue to cooperate with local engineers, exclusive agents and foreign merchants. We sincerely hope to work with like-minded partners.
