The current Pitcairn Island dependency ratio (those under 18 and over 65 compared to the productive population) stands at 58 percent. The issue for Pitcairn Islands is that the ratio is trending in the wrong direction and by 2025 it will be over 100 percent. At this point there will be more pensioners than productive-age persons.

Pitcairn Island, a small and remote land in the South Pacific, has a rich history that began with its discovery by European explorers and was forever changed by the infamous mutiny on the HMS Bounty. ... This act of rebellion was driven by the crew's desire to stay in Tahiti and live freely. The mutineers then sailed to Pitcairn Island, where ...

Big Fence / Pitcairn Island. Text: Gemma Padley. ... how it could be understood as a construct born of need or desire. How can it be that Pitcairn is symbolic for some as a paradise, but for others a nightmarish "Lord of the Flies" reality? Such is the power of the Bounty myth and indeed the mystery surrounding faraway places - rational ...

This brings our readers to Pitcairn's Island. Some of them may desire to learn the origin of its name, and the circumstances of its first discovery by British navigators. Captain Philip Carteret, in his description of a Voyage round the World, wrote as follows, July 1767: -

Renewable Power for Remote Communities. The preceding maps of Solar radiation (Solargis) and Wind energy (Global Wind Atlas) show that Oceania is able to be roughly split into regions close to the Equator and those farther away with different amounts of Solar radiation and ranges of Mean Wind Speeds. Solar Power appears to be the most significant source of Renewable ...

Welcome to /r/PitcairnIslands, a place for content and discussions related to the Pitcairn Islands. u/hapsbro. ... Cable ferries are very effective and really low energy consuming comparing to normal ferries and long boats. For example, the 22 meter, 22 tonne Pritzerbe Ferry has 23 kW installed in comparasion the motor ferry &quot;Luise&quot; on the ...

Discovery of Pitcairn Island . Captain Philip Carteret first spotted Pitcairn Island in 1767 but couldn't land due to rough seas. He miscalculated its location, marking it miles away from its true position. Years later, Captain Cook showed some interest, but it wasn't until the Bounty mutineers arrived in 1790 that the island gained attention.

The Pitcairn Islands (/ ... Of the hundreds of emigrants contacted, only 33 were willing to participate in the survey and just three expressed a desire to return. [102] As of 2014, the labour force consisted of 31 able-bodied persons: 17 males ...
