

Domestic energy storage project financing options in Guernsey 2026

What is the energy strategy for Guernsey?

The Electricity Strategy for Guernsey covers the period up to 2050. The Committee for the Environment & Infrastructure considered several different ways in which Guernsey could meet its future demand including solar, wind, tidal, additional interconnectors, energy storage and alternative fuels.

Should Guernsey have solar farms?

In response to calls for solar farms in Guernsey, Little Green highlights the potential of brownfield developments for sustainable energy while advocating rooftop solar as the island's primary path to net-zero. They emphasize the need for environmentally responsible solutions, like agrivoltaics, to balance energy generation with land use.

Does Guernsey need a green economy?

It is essential that Guernsey can manage its own transition to a green economy effectively and so a strategic direction must be set, along with a market structure that supports this, and provide certainty to the energy industry. The Electricity Strategy was approved by the States of Deliberation in September 2023. What was proposed?

How can Guernsey support a vibrant economy?

Supporting a vibrant economy - A clean, reliable, and affordable energy supply is a fundamental economic enabler. Establishing an environment for the development of on-island (including offshore) renewables will support the diversification and vibrancy of Guernsey's economy.

Why should Guernsey invest in offshore renewables?

Establishing an environment for the development of on-island (including offshore) renewables will support the diversification and vibrancy of Guernsey's economy. A shift to decarbonisation in Guernsey will be an essential reputational advantage to support the growth of the green finance sector.

How many solar panels are installed in Guernsey?

Since 2013, we've installed over 3.1 megawatts of energy generation capacity, equating to over 7,000 solar panels, all of which contribute to the States of Guernsey's ambitious net zero 2050 targets. We partner with brands like Maxeon SunPower and SolarEdge, giving clients access to the most trusted names in the industry.
