IntegrateSun uses "on-grid" systems, meaning that they are still connected to the electrical grid. On-grid solar energy systems are necessary to transfer excess power into the grid, which can result in a credit to customers in some states. On-grid systems also keep you connected to the grid for additional power from the utility.

Our solar panels were installed quickly and efficiently. The wiring of the inverter system and connection done to our existing electrical system was quite remarkable. Our ability to monitor production online is a plus and allows for reconciling our electric bill monthly. Finally, the installation of solar panels is our attempt to help lower our carbon footprint on our world..
