

Dorman energy Jordan

What type of energy is used in Jordan?

Renewable energy here is the sum of hydropower, wind, solar, geothermal, modern biomass and wave and tidal energy. Traditional biomass - the burning of charcoal, crop waste, and other organic matter - is not included. This can be an important energy source in lower-income settings. Jordan: How much of the country's energy comes from nuclear power?

What is the biggest solar power plant in Jordan?

In October 2016, Jordan signed a power purchase agreement with Masdar, a clean energy developer based in Abu Dhabi, UAE to build the biggest single solar installation in the country, Baynouna Solar Power Plant, with a 200 MW capacity.

How much biomass will Jordan generate by 2020?

The government is looking to generate 30-50 MW of biomass by 2020. By November 2014 Jordan had 10 MW of installed capacity from renewable energy, and had over 15 renewable energy power plants in progress to be completed by the end of 2015, raising the installed capacity to 500 MW, representing 14% of the overall installed capacity.

How much natural gas does Jordan have?

Jordan was estimated to have only modest natural gas reserves (about 6 billion cubic meters in 2002), but new estimates suggest a much higher total. In 2003 the country produced and consumed an estimated 390 million cubic meters of natural gas. The primary source is located in the eastern portion of the country at the Risha gas field.

Where is the first solar-powered charging station in Jordan?

Jordan inaugurated its first solar-powered charging station for electric cars in February 2012. Located at El Hassan Science City (EHSC), the station is considered the first step towards promoting solar-powered vehicles and building more solar-charging facilities on the streets of Jordan.

In 2023, Dorman Energy launched its Container build center, specialising in comprehensive Battery Energy Storage System (BESS) containerized solutions tailored to meet your unique needs. With the capability to manage up to eight builds simultaneously, we are committed to delivering top-quality solutions for both EPC projects and bespoke client builds.

Partner with Dorman Energy Pty Ltd for innovative, reliable, and efficient energy solutions. The future is bright with BESS! With 24 years of industry expertise since our establishment in...
