ESDA Series Storage Cabinets. The dry storage cabinets of the ESDA series have been designed with transparency in mind. Engineered for medium to long-term constant low humidity storage of $\leq 5\%$ RH, they come with a wide range of equipment options, such as nitrogen flows & can be equipped with or without drying units. The ESDA series is ESD safe.

These humidity controlled dry storage cabinets feature digital controller of RH. This controller also displays temperature and current humidity level. Each cabinet is made of 1.2 mm galvanized steel sheet, which is ESD safe painted. Doors have toughened glass window to view samples inside without opening the door. For caster wheels are provided ...

Our range includes QDB nitrogen dry cabinets, which regulate the flow of dry air into the storage area, and X2B oxygen dry cabinets, designed to maintain stable conditions at $\leq 5\%$ RH without adjustment. Laboratory dry cabinets play a crucial role in preserving the quality and reliability of electronic components.

Manncorp offers a wide selection of ready-to-ship moisture protection solutions for electronics assemblers, PCB manufacturers, and component distributors and manufacturers. Manncorp's Desiccator Dry Cabinets can maintain a relative humidity of less than 5%, meeting IPC/JEDEC standards, for your SMT component storage or other storage needs.
