Do ESCOs provide integrated energy services in Africa?

Research carried out by BASE and Integrate to Zero, analysed the existing ESCOs in six African countries (Morocco, Kenya, Ghana, Nigeria, South Africa, and Rwanda) to understand the maturity and needs of this sector to provide integrated energy services.

What is ESCO remuneration?

The ESCO concept is a straightforward one, whereby ESCO remuneration is based on the amount of energy saved through the project, thereby reducing the risks of undertaking energy-efficiency projects for clients. Large ESCO industries have been successfully operating in most developed countries in North America and Western Europe for many years.

Where are Esco associations located?

The map shows where ESCO Associations are established and which ones currently have partnered with the Global ESCO Network. Two regional associations have also joined, in Asia and Europe, marked with red pins. Equally, the Global ESCO Network's locations in Copenhagen and Washington are indicated with red pins.
