

Evelo energy Guam

What does the Guam Energy Office do?

The Guam Energy Office, as a line agency within the Executive Branch, implements energy programs for the benefit of the island community using grants awarded by the U.S. Department of Energy - the State Energy Program (SEP) and the Weatherization Assistance Program (WAP).

Are Evelo electric bikes good?

EVELO makes elegant yet powerful electric bikes for recreation, commuting & exercise. Every bike comes with a 4-year/20,000-mile warranty & a 21-day trial. EVELO electric bikes are easy to ride, fun and are backed by a company with an impeccable reputation. Start a more active lifestyle today!

When will the Guam Energy Office reopen?

The Guam Energy Office will reopen for business starting Monday, June 1, 2020 from 8:00 am to 5:00 pm. Effective June 1, 2020, all GovGuam offices, agencies, and departments will recommence public operations. Continued compliance with Social Distancing rules will be strictly enforced, thus services will be limited to those with appointments only.

How is electricity generated in Guam?

Electricity in Guam is generated by several plants burning residual fuel oil operated for the Guam Power Authority by independent power providers. In 2015, electricity cost 2.5 times as much on Guam as on the U.S. mainland. A new plant was proposed in 2014 that would replace all of these generators and run on either diesel or liquified natural gas.

Does Guam have plans for a solar farm?

Guam has announced plans for several large solar farms. The island has adopted a renewables policy that requires the reduction of fossil fuel consumption by 2020 to 20% less than the rate in 2010. Another requirement is for 5% of electricity in 2015 to be from renewables, increasing to 25% by 2035. A net metering program began in 2009.

How much power does Guam generate?

Guam has a rated generating capacity of 560 MW, more than twice its historical highest load. This power is supplied by several plants burning residual fuel oil operated for the Guam Power Authority by independent power providers. In 2015, electricity in Guam cost 2.5 times as much as on the U.S. mainland.
