Are evergreen es-A-200 (B grade) solar panels any good?

I've owned the Evergreen Es-A-200 (B Grade) solar panel for a month now, these, being my first solar panels; I wasn't sure what to expect. When I finally got them up and running I was very satisfied with their performance. Knowing that I can supply my own power is fantastic... And, I my home can look good while doing just that.

Is evergreen a good company?

Now to comment on Evergreen as a company, Evergreen were very hard to get in contact with when I had questions regarding my panels. It took my numerous tries to get a hold of someone via phone. This of course isn't regarding the panels but just to warn anyone who is looking into buying any Evergreen product. Panels are fantastic!

PV panels - We supply only the best quality. When investing in solar it is extremely important to get the best products. Many suppliers sell inferior products at competitive prices that look exactly the same as the good ones. The difference comes in a couple of years - only then will the difference in quality be noticed.
