Does Finland have a smart meter?

In line with European Union regulations, Finland has achieved a significant milestone in energy management by installing smart meters in 100% of households. These advanced meters measure electricity usage every hour, providing precise and real-time data.

So my question is are they charging you the big price for the 2nd power wall (same price as a first powerwall) or the small price for the 2nd powerwall (as though it's a 2nd powerwall)? If they charge you the \$6500 (under 5K after federal credit) + \$3500 install that's a bit different than charging you the higher price (over 10K/over 7K ...

We have optimized all costs to fulfill our customer promise - the same cheap price in both power and in the stores.

Australians looking to install a Powerwall got some good news with a recent \$1,699 price drop. The new suggested retail price for a Tesla Powerwall is now \$12,900, close to the initial price in 2022. During 2022, Tesla had multiple price hikes to move the cost from \$12,750 to \$16,230 due to supply constraints and other issues.

While carrying a significant upfront price tag, the Tesla Powerwall can deliver substantial long-term savings and home energy resiliency when paired with solar panels. For green-minded homeowners, the 10-15 year cost of ownership is justified by electricity bill reductions, backup power peace of mind, and added home value.

A single Powerwall can store 13.5 kilowatt-hours (kWh), enough to power a typical UK home for more than 24 hours. The installed price of a Powerwall ranges from &#163;9,000 and &#163;12,000, which means you are paying less than &#163;900 per kWh of storage capacity. The Powerwall is exempt from 20% VAT if installed along with solar panels.

After the start-up of Olkiluoto 3, power prices in Finland saw a 75% plunge between December 2022 and April 2023. In addition, growing solar and wind capacity is also contributing to a cleaner and ...
