Is power factors acquiring inaccess?

SAN FRANCISCO, California, June 15th, 2022 - Power Factors, a leader in renewable asset management software, today announced it will acquire Inaccess, a leading provider of integrated mission critical software and hardware solutions for renewable power plants, battery energy storage systems, hybrid plants, and virtual power plants (VPPs).

How will Power factors & inaccess work together?

The combination of two powerful platforms, with Power Factors' leading asset performance management solutions and Inaccess' best-in-class SCADA, power plant and battery control, and energy marketing offerings, will unlock these new services, along with new potential revenue streams.

What does inaccess's acquisition of power factors mean for customers?

The acquisition, for an undisclosed sum, will offer the ability to connect Inaccess' EMS, SCADA and power plant controller technologies with the US company's asset performance management solutions, Power Factors said, unlocking new revenue opportunities for customers.

What's new at power factors?

The deal adds SCADA, power plant and battery control, and energy marketing offerings to Power Factors' platform, and increases the company's customer asset management portfolio to nearly 200 GW.

Why is power factors partnering with inaccess?

Such goals require a broad and deep technical stack along with the platform capacity and scale that serves the largest energy producers on the planet. Achieving global scale is one of the many reasons we are excited to join forces with Power Factors, " said Christos Georgopoulos, co-founder and CEO of Inaccess.

Why did power factors buy Bess?

According to Power Factors, the acquisition was made to create a singular offering that could provide performance-based insights into asset controls, while also enabling easier integration of BESS systems into new and existing renewable energy projects.
