independence. Whether you prefer off-grid, grid-powered, a hybrid solution, or a mobile setup, our kits are
customized to fit ...

This must be scaled rapidly, with Botswana set to enable the first grid integration of 335MW of solar PV
capacity by the end of 2026. With the government looking to install 1GW of wind and solar PV capacity by
2030, the World Bank claims that 140MW of BESS will be required to facilitate the integration of variable
renewable energy (VRE).

Our target is to provide home solar systems, solar geysers, big rooftop PV systems for malls and warehouses
as well as hybrid PV and water pumping systems for farms and mines. Call Us: +(267) 311 8011
