

Galo solar Maldives

What is the Maldives solar project?

The Maldives solar project is a 36 MW solar power project and 50 MWh of battery energy storage solutions development across various islands in the Maldives. It also includes grid modernization for the integration of variable renewable energy with the grid, which will be financed under the proposed AIIB loan.

Will a 5 MW solar installation make Maldives a popular destination?

Now, one of the first sights for any of the 1.7 million tourists visiting the Maldives will be that of the 5 MW solar installation on the highway linking the airport island to Male and its satellite town of Hulhumale.

Should investors invest in sustainable solar projects in the Maldives?

In 2014, the first 1.5 MW solar project under ASPIRE only had four investors bids, and resulted in a high power purchase price (PPA) of 21 US cents per unit of electricity, indicating a lack of interest from investors in investing in sustainable projects in the Maldives.

Why should you choose Galo solar?

Robust financial backing, ensuring long-term support for all solar projects. Explore the diverse range of solar energy solutions we have implemented for our clients. Discover Galo Solar's cutting-edge solar energy solutions for residential and commercial needs. Save money and embrace sustainability with premium solar panels and systems.

Is the Maldives a sustainable investment destination?

This journey, which started in 2014, is now seeing unprecedented interest from international investors and helping establish the Maldives as an investment destination for sustainable projects.

Will Maldives become net-zero by 2030?

Projected to lose 80 percent of its land over the next few decades, the Maldives strengthened its commitment towards climate change and renewable energy targets when President Ibrahim Mohamed Solih announced the country's ambition to become net-zero by 2030 at the UN Climate Ambition Summit in December 2020.

Towards this, through two World Bank-funded sustainable energy projects--Accelerating Sustainable Private Investment in Renewable Energy (ASPIRE), and Accelerating Renewable Energy Integration and Sustainable ...
