in over 30 years. HSG is supporting the single-source concrete formwork and ...

POWERING PRODUCTS OF THE FUTURE The AlumaPower "Galvanic Generator(TM)" Our patented technology runs on recycled aluminum fuel discs, powering a zero-emissions portable generator that can run continuously for days.

Aluminum-air (Al-air) batteries are a well-established technology originally invented in the 1960s. However, due to lingering technical issues they failed to scale - which limited their use to niche applications such as torpedoes, UUVs, and buoys.

Georgia Power Co., a utility company based in Alma, Georgia, provides electric and gas services to customers in the state. With a focus on customer satisfaction, the company offers a range of services, including online account access, money-saving products, plan comparisons, and the ability to start, stop, or transfer electric service online.

AlumaPower's breakthrough technology is the "Aluminum-air galvanic generator", a portable long-life energy source that runs on recycled aluminum as fuel. It produces zero emissions while delivering over 4 times the energy density of lithium-ion batteries.

WHO WE ARE The AlumaPower Team. AlumaPower is a Canadian-based cleantech startup founded in 2017. We are a team of experienced product developers and committed new professionals dedicated to delivering a first-in-kind solution to help Canada and the world combat the growing climate crisis.

The entire state of Georgia has been affected by the storm, with the hardest hit areas including Savannah, Augusta and Valdosta. As of 10 a.m., approximately 730,000 Georgia Power customers are impacted by Hurricane Helene. Crews are working now to assess damage in every region across the state and will be restoring power to customers as quickly as possible.

Developer of a portable power generator designed to turn recycled aluminum into a long-duration, zero-emission energy source. The company's generator utilizes a patented process to extract energy from recycled aluminum to target business-to-business partners seeking extended-duration power, enabling clients to use home backup power to electric ...
