Who is enerpoly?

At Enerpoly, we are dedicated to making a positive, enduring change in global energy access and decarbonization. Through honest innovation, we seek to deliver the energy storage solutions of tomorrow. Enerpoly is headquartered at Stockholm, and brings the best of Swedish design and sustainability to the energy storage industry.

Are enerpoly batteries a safe solution for stationary energy storage?

Our batteries are a safe, reliable and incredibly cost-efficient solution for stationary energy storage. The Enerpoly Production Innovation Center (EPIC) aims to meet the demand for affordable stationary energy storage and provide a blueprint for global zinc-ion battery production to support the clean energy transition.

What is enerpoly battery chemistry?

Enerpoly is a next-generation energy storage technology company pioneering rechargeable zinc-ion battery chemistry. By designing our batteries with safe and affordable materials that can be sustainably scaled, Enerpoly is building a world where everyone has access to clean energy.

Where is enerpoly located?

Enerpoly is located in Stockholm, Stockholms Lan, Sweden. Who invested in Enerpoly? Enerpoly has 4 investors including Swedish Energy Agency and Vinnova. How much funding has Enerpoly raised to date?

When did enerpoly close?

Enerpoly closed its last funding round on Dec 12, 2023 from a Grant round. Who are Enerpoly's competitors? Alternatives and possible competitors to Enerpoly may include Solid Power, Invinity Energy Systems Plc, and Viridity Energy. Enerpoly is a next-generation energy storage technology company pioneering the zinc-ion battery chemistry.

What is enerpoly production Innovation Center (EPIC)?

The Enerpoly Production Innovation Center (EPIC) aims to meet the demand for affordable stationary energy storage and provide a blueprint for global zinc-ion battery production to support the clean energy transition. Enerpoly is located at Stockholm, and brings the best of Swedish design and sustainability to the energy storage industry.

Extern VD för Enerpoly AB Eloisa De Castro och Styrelseledamot Mylad Chamoun. Under de senaste 5 åren har Enerpoly betalat in totalt 13 KSEK i skatt vilket placerar bolaget på plats 410 588 av Sveriges alla 760 276 aktiebolag. Enerpoly AB har organisationsnummer 559181-4388. Enerpoly har kontor i Stockholm.

Having been awarded a USD 8.4 million grant from the Swedish Energy Agency in late 2023, Enerpoly set

to manufacture zinc-ion batteries. This grant ...

Enerpoly develops zinc-ion batteries for stationary energy storage. The company's patented battery technology solves critical problems with today's energy storage solutions. Zinc-ion batteries are a safe, sustainable, and scalable battery technology that can enable 100% renewable energy on a global scale.

Enerpoly had the zinc-ion battery tested against UL9540A standards at the Research Institute of Sweden (RiSE) in June 2022. Our battery passed all safety tests. Pilots will commence with external parties in 2023.

The patented technology, which uses globally-abundant zinc and manganese, is a safe, clean, and scalable solution. Enerpoly was founded in 2018 and is headquartered in Stockholm, bringing the best of Swedish design and sustainability to the energy storage industry. Enerpoly has raised EUR5M in grants and equity and now launches Series A.

Enerpoly has received EUR1.63 million EIC Horizon 2020 "Green Deal" grant from the European Innovation Council. The funds will be used to scale our lab-developed zinc-ion batteries for the growing stationary energy storage market, marking a significant step towards commercialization. ...
