

Ideal energy equipment Panama

oFully automated, no contamination, high throughput and in-line o One unit to process I/N/I/P four layers o Productivity: >5000 wafers/hour (M2-M12)

Ideal Energy has raised the bar for innovation in Midwestern solar energy companies and solar development with complete in-house services that form a streamlined installation experience. Founder & Former US Navy SEAL Troy Van Beek leads a fully integrated team focused on smart, scalable solar deployment.

The new equipment includes blend tanks, chemical injection pumps, centrifugal pumps, and hydraulic power packs. Custom designed by Ideal, this equipment is user-friendly and purpose-built for oilfield applications. All of the new equipment is modular and can be used both onshore and offshore in conjunction with the Company's entire product line.
