Who is ateps Nederland BV?

Gennevilliers, France (October 04, 2021) - Exide Technologies ( ) announces today the acquisition of ATEPS Nederland BV. ATEPS develops, builds and delivers energy storage systems (ESS) to transition from fossil energy over to renewables.

Who is ateps?

ATEPS is an innovative and dynamic provider of lithium-ion based energy storage and its management in future key applications such as time shift, frequency control, peak shaving, energy trading and more.

What does ateps do?

ATEPS develops, builds and delivers energy storage systems (ESS) to transition from fossil energy over to renewables. Its solutions contribute to the global goal to make sustainable energy usable across the board by 2050 and enable further greenhouse gas reductions. Combining innovation and global energy storage expertise

Is ateps still a company?

"We continue under the name ATEPS but as an Exide Technologies company," the firm said. "Our customer base has grown significantly in recent years and we have experienced enormous growth. By being part of a global leader like Exide, we have access to their resources, sales skills and distribution.

What makes ateps a successful & sustainable company?

Jos Theuns CTO of ATEPS adds: "Our focus for a successful and sustainable future is on storage systems and solutions for greenhouse gas reduction and an optimization of TCO in energy-intensive industries. Being part of a global leader such as Exide will bring our products & services to a new level." About Exide Technologies:

With more than 13 years background with industrial batteries and international marketing, I am dedicated to lithium ion battery solution for energy storage system and e-mobilities. With the strength of the working experience, communication skill and understanding of both Chinese and European thinking, I am striving to offer the customer the most efficient and smooth solution. #183; ...
