

Koil energy Angola

Who is Koil Energy?

Koil Energy is a leading energy services company offering subsea equipment and support services to the world's energy and offshore industries. We provide innovative solutions to complex customer challenges presented between the production facility and the energy source.

Why should you choose Koil?

KOIL is renowned for delivering competitive, high-performance subsea distribution systems worldwide. By leveraging years of industry experience and applying practical design solutions, the company offers reliable and efficient subsea products.

What makes Koil Energy a great team?

What's most exciting for the Koil Energy team is our valiant commitment to what we love to do. With a passion to build something bigger than ourselves, a desire to perform against the odds, and a drive to accomplish more than we should be able to, given limited resources, we have the best team in the industry.

Koil Energy is a leader in the design, manufacture and installation of steel tube flying leads. Our flagship product, the LSFL (Loose Steel Tube Flying Lead), was developed to eliminate the residual memory left in traditional flying leads due to the bundling process. The loose lay of the tubes significantly reduces stiffness of the assembly ...

Koil Energy continues the evolution of the Moray Termination System by offering integrated 250 lb. uplift buoyancy module covers. This new addition to the Moray Termination System eliminates rigging and reduces the complexity of lead makeup to a single ROV pass at each end of the flying lead. The integrated buoyancy module is designed to ...
