I am in the market for a new server unit (EXSi, fileserver, backups, game servers etc...). I am looking to upgrade my current setup which is essentially a ultra small form factor PC with limited computing power, its perk being that it only draws a very ...

Low power storage server Burkina Faso

As per 2017 JRC recommendations for Burkina Faso, the marginal cost of electrification could be reduced through the deployment of 374 MW of decentralized PV ...

Honestly, your best bet is probably a real server with good power management/supply, especially if you're letting Jellyfin do transcoding (Owncloud isn't especially efficient, either). Anything that tops out at "low power" will choke on that, so you want something that idles low but can handle the activity spike. I use old salvaged Supermicro 1Us.

Ouagadougou, Burkina Faso, February 24, 2020 - IFC, a member of the World Bank Group, signed an agreement with Burkina Faso's Ministry of Energy to assess how ...
