

Lumio energy St Kitts and Nevis

The two islands have completely separate energy systems - the St Kitts Electricity Department is a government-owned utility company responsible for the generation, transmission and distribution of electricity on St Kitts. The Nevis Electricity Company is a public-private company that provides the same services on Nevis.

According to Mr. Williams, the farm is expected to provide between 30-35 percent of St. Kitts and Nevis' baseload energy for the next 20-25 years, while reducing carbon dioxide emissions by more than 700,000 metric tons over that same period.
