

Macao scud power

Does Macau have a power grid?

Macau has also interconnection grids with Mainland China in Guangdong with Guangdong Power Grid of the China Southern Power Grid Company . The first interconnection commissioned in June 2008 are the three 220 kV circuits connected at the 220/110 kV Canal dos Patos substation, with the importation capacity of 1,050 MVA.

How much electricity does Macau import from Guangdong?

These five interconnection circuits give a total of 1,750 MVA importation electric capacity for Macau from Guangdong in Mainland China. As of 2017, Macau has been experiencing an average 2.3% annual growth rate for their electricity demand.

Is Macau connected to Guangdong's electrical grid?

Electrical grid in Macau has been linked to electrical grid of Guangdong since 1984. In 2015, CEM announced that over the next three years, CEM will build another five new substations to power up the upcoming Macau Light Rail Transit, hospitals and Ilha Verde.

How much electricity does Cem produce in Macau?

In 2012, CEM produced 376 GWh to supply 8% of Macau's 4,344 GWh gross energy demand, while the remaining 3,968 MW (92%) was imported from Mainland China through Guangdong Power Grid under China Southern Power Grid Company. In 2013, CEM generated 7.2% electricity for Macau, while the electricity import from Mainland China rose to 92.8%.
