Who is AMEA power?

Founded in 2016, AMEA Power has assembled a leading team of global industry experts to deliver projects across Africa, the Middle East and other emerging markets. AMEA Power already has more than 1.2GW of clean energy projects either in operation or under construction in Burkina Faso, Egypt, Jordan, Morocco and Togo.

When did AMEA Power commissioned a 50MW solar power plant in Togo?

AMEA Power commissioned a 50MW solar power plant in Togo in June 2021. The Sheikh Mohamed Bin Zayed solar plant was delivered in record time, reaching commercial operation within 18 months of signing the Power Purchase Agreement, in spite of the COVID-19 pandemic.

When will AMEA power's solar project become fully operational?

The project became fully operational in July 2021. AMEA Power is constructing a 500MW solar PV project in the Aswan Governate in southern Egypt. Once commissioned, the solar power plant will be the largest solar PV project on a single site in the country. The project reached financial close in late 2022.

How much money will AMEA Power Invest in a solar project?

At a total investment of around US\$60 million, the solar project is being fully developed by AMEA Power under a Build-Own-Operate and Transfer (BOOT) model and will generate more than 85GWh of clean energy per year, enough power for around 350,000 people.

Where is AMEA power constructing a 500MW solar PV project?

The project has a 20-year offtake from the National Electric Power Company (NEPCO) of Jordan. The project became fully operational in July 2021. AMEA Power is constructing a 500MW solar PV project in the Aswan Governate in southern Egypt.

What is AMEA power doing in the energy transition?

Energy Transition AMEA Power is rapidly expanding its investments in wind, solar, energy storage and green hydrogen, demonstrating its long term commitment to the global energy transition. Sorry, your browser doesn't support embedded videos.
