

Megawatt power solutions Cambodia

In addition to the news of the LNG plant mentioned earlier, the Council for the Development of Cambodia (CDC) had also approved USD \$65.5 million for the construction of SchneiTec Vibrant Co Ltd's 60 Megawatt (MW) solar power plant in Svay Chek commune, in Svay Rieng province.

Trusted for their reliability, quality, and customer-centric approach, Megawatt Global Limited stands at the forefront of the power and energy sector, driving progress and innovation across the globe. MGL specializes in providing turnkey Engineering, Procurement, and Construction (EPC) solutions in the power and energy sector worldwide.

Cambodia's Solar Power Plants Apart from the Kampong Chhnang plant, Cambodia has two other operational PV parks (photovoltaic power stations) in 2020 with capacities of 10 MW and 80 MW, respectively. The first operational solar power station is located in Svay Rieng province and generates 10 mW of power to the national grid.

The \$1.34 billion investment symbolizes Cambodia's drive toward cleaner energy solutions, paving the way for greater energy security and economic development. The 900MW Gas-Fired Power Plant: Enhancing Energy Capacity. With a capacity of 900MW, this gas-fired power plant is set to become a cornerstone of Cambodia's energy landscape.
