

Mexico hoymiles micro storage

Where is hoymiles based?

Hoymiles announced it officially inaugurated its first overseas manufacturing facility in Monterrey, Mexico, marking a significant milestone in the company's global expansion strategy.

Where are hoymiles microinverters made?

Hoymiles says it has commissioned a microinverter factory in Monterrey, Mexico, with an initial production capacity of 500,000 units per year. From pv magazine LatAm Chinese microinverter manufacturer Hoymiles has opened its first overseas manufacturing plant in Monterrey, Nuevo Leon, Mexico.

Why did hoymiles build a Monterrey facility?

The Monterrey facility is significant for enhancing Hoymiles' service capabilities in the Americas and aligns with its dedication to adapting to industry changes and market demands. The facility will streamline operations, improve service efficiency, and reinforce Hoymiles' commitment of "Open Energy for All".

Why did hoymiles open a new facility?

This expansion will help Hoymiles better address the growing renewable energy needs of the region. The opening of this facility represents more than just an increase in manufacturing capabilities; it reflects Hoymiles' strategic vision for localized production.

Will hoymiles expand its production capacity?

With an initial annual production capacity of 500,000 units, the facility is set for future expansion, aiming to double its output with additional production lines. This expansion will help Hoymiles better address the growing renewable energy needs of the region.

Why should you choose hoymiles?

By being closer to key markets, Hoymiles will improve service responsiveness, reduce delivery times and offer more competitive pricing while ensuring high-performance products that meet local demands.
