

Micronesia sunny power

Does Micronesia have a state-owned utility company?

state-owned electric utility company. Because the Federated States of Micronesia is so geographically dispersed, three of the four utilities must serve a populous core island or group of islands as well as numerous remote islands; the Kosrae Utility Authority is the only utility that serves a single island.

How does the geography of Micronesia affect electricity?

The single island of Kosrae has an electrification rate of 98%, while Chuuk, spread across seven major island groups, achieves a rate of 26%.⁵ Aside from limiting access to electricity, the geography of the Federated States of Micronesia has several other adverse effects on utility operations.

What are the guiding principles for energy development in Micronesia?

In addition, the policy establishes the following guiding principles for energy development in the Federated States of Micronesia: (1) the spread of benefits to disadvantaged communities, (2) increased public awareness and local capacity, (3) private sector involvement, and (4) community solutions.

What is the solar project in Pohnpei?

The solar project in Pohnpei is a concept that can be replicated by other Small Island Developing States. It is proof positive that PEPP has the imagination to visualize the needs of Pacific Island societies and the technological and broad social understanding to bring that vision to reality.

Will Pohnpei slash electricity costs?

Without fanfare, PEPP launched a whirlwind of consultations with stakeholders, who swiftly coalesced around our plan to slash electricity costs to Pohnpei consumers. The project will reduce Pohnpei's carbon footprint significantly. It will also safeguard Pohnpei's energy needs for many years to come.

How did Pohnpei solve its electricity shortage?

Even before incorporating, PEPP immediately mobilized a team, together with accredited USA-based strategic partners, who devised a plan for easing Pohnpei's electricity shortage by constructing a solar power farm on Pohnpei and amortizing the cost through a Power Purchasing Agreement with the PUC.
