

Momentum energy group Mauritania

Is Mauritania ready for the largest green hydrogen production project in the world?

Driven by this momentum, the country has signed a memorandum of understanding for the implementation of the largest green hydrogen production project in the world, which Mauritania intends to develop in partnership with CWP Global, an Australian renewable energy development company led by an American founder and CEO.

Why should you invest in Mauritania?

Investing in Mauritania can offer a wide range of opportunities, particularly in the energy sector. With major gas discoveries and large-scale renewable energy projects in development, the country is poised for significant growth in this area.

Should Mauritania invest in wind energy?

A major investment in wind energy infrastructure in Mauritania could not only provide a significant source of renewable energy for the country, but also make a significant contribution to global efforts to reduce reliance on fossil fuels and combat climate change.

Momentum Energy Group excels in ESG debut! In our first year with GRESB, we scored an impressive 95/100, securing top rankings. This high GRESB score recognizes our strong commitment to sustainability and ESG and confirms that we take our responsibility to contribute to a more sustainable future seriously.
