Yes, solar panels can potentially increase the value of your home. Many home buyers appreciate the lower utility costs and environmental benefits associated with a solar-powered home, making your property more attractive on the market.

Both Fahad R and Jessica have been a pleasure to work with. They answer all my questions or find out the answers. They just finished installing my 5kw system and I love how you can barely see the critter guards, cables are tucked neatly, and the panels were very lightweight. I would highly recommend my Solar if you want high quality work
