

Myanmar anodox energy

Why is electricity so low in Myanmar?

The electrification rate is especially low in rural villages, which are mainly not connected to the power grid. Wood and biomass are used as a primary source of energy in these areas. Myanmar has abundant energy resources, particularly hydropower and natural gas.

Is Myanmar realigning to a new energy mix?

At the Myanmar Oil and Gas Society annual meeting on 24 January 2021, minister U Win Khaing mentioned that the country is realigning to a new energy mix to hydropower 40%, solar 14%, domestic gas 34% and LNG 11%.

How much power does Myanmar have?

Currently, Myanmar has a total installed capacity of around 4 GW within the grid system which is mostly based on hydropower, natural gas power plant, and coal-fired power plants. The latest available data on Myanmar's energy sector comes from 2016-2017, as presented in Figure 1.

Can Myanmar reduce energy consumption by 25%?

As part of this roadmap, the government identified Myanmar's energy consumption patterns and future demand, as well as the potential to reduce energy consumption by 25% by addressing EE&C issues mainly on the industrial (8.84%), commercial (4.97%) and residential sectors (9.70%); an additional potential of 1.7% was identified in other sectors.

How will Myanmar's energy supply change in 2040?

Hydropower will increase at an average annual rate of 6.3% in 2016-2040, faster than fossil fuel. Solar/PV is projected to grow the fastest, at 22.3%, in line with the government programme to increase the RE share in the total mix of power generation. Figure 6.4. Total Primary Energy Supply, Myanmar Mtoe = million tons of oil equivalent.

What is Myanmar's National Energy Policy?

Myanmar has developed National Energy Policy (issued in 2014), that aims to systematically explore the available energy resources of the country to meet the demand of the country and to export value added products for surplus resources; thus, ultimately improving the living standard of the people in Myanmar sustainably.
