

New Zealand solar kit inia

Can you install off grid solar in New Zealand?

In New Zealand you can install your own off grid solar up until the point of 240V AC wiring- such as wiring into a household switchboard - which by law can only be done by an electrician. We make installation easy with off grid solar kits in various sizes to fit your lifestyle. Not sure which off grid solar power system is best for your lifestyle?

What are gridfree's off grid solar system kits?

GridFree's off grid solar system kits are complete packages with EVERYTHING you need to install off grid solar in NZ + education and ongoing support from us!

Where can I get solar training in New Zealand?

New Zealand's only live in-house solar training centre where installers electricians, builders and resellers nationwide can gain first-hand experience installing solar. We at Solar Partners provide a range of training modules led by industry leaders across all our products.

How can solar power help New Zealand?

We're working with the sector on New Zealand's renewable energy and low-emissions transition. We're responsible for the governance and regulation of New Zealand's electricity industry. Solar power can help you become more self-sufficient, reduce your carbon footprint and reduce your energy costs.

Who is Solar Partners New Zealand?
