Under the new energy roadmap, Niue has set a goal of 80% renewables by 2025. According to Radio New Zealand, while the main focus of Niue's energy transition will be on solar power; the potential of other renewables such as wind power, biomass and wave energy will be investigated.

The project will bring Niue's renewable generation to 80 percent. New Zealand will also commit \$2 million to the Niue Ocean Wide Trust, which aims to develop a blue economy and ensure long-term ocean conservation and climate resilience.

Similarly, Niue's largest solar array (near the hospital) requires some inverters to be replaced. These are on-island, and replacement work will be carried out in the next few weeks. At this point, we will be able to bring a sizeable portion of solar back on the grid and reduce diesel consumption from running the generators full time.

PCL was one of the first contractors to construct utility-scaled projects. From fields to rooftops, our Solar team, powered by industry leading experts, has been trusted to build numerous solar projects across the globe. See our featured solar construction projects.
