What are Tier 1 solar panels? The term "Tier 1" in solar panels often creates the impression of high quality, but it doesn't actually refer to the panels themselves. Instead, it's a classification given to manufacturers based ...

Lots of little "boutique" manufacturers make excellent solar panels but will never be classed as Tier 1 as they don't ship enough volume. So what's your advice on how to choose a good panel? My simple advice is to stick to brands on my recommended chart instead of using "tier" status to make a decision - as there are many "tier 1" brands that I ...

As well as tier 1 solar panel manufacturers, there are also tier 2 and 3 manufacturers. Only tier 1 is the "official" tier but tiers 2 and 3 quickly evolved as a result of the new grading system. Tier 1 is at the top of the tree while tiers 2 and 3 are in descending order.

Why tier 1 solar panels are the best choice for Australians. Unmatched performance in extreme weather: Tier 1 solar panels are built to withstand extreme conditions, from intense UV radiation to cyclones in northern regions. Many are tested for resilience against high winds, heavy rainfall, and temperature fluctuations,
