

North Macedonia able grid energy solutions

As part of the Powering Past Coal Alliance, North Macedonia has committed to a coal phase-out by 2027. It was also the first contracting party to the Energy Community to complete a National Energy and Climate Plan (NECP)--committing to increase the share of renewable energy sources in its gross energy consumption to 38% by 2030.

North Macedonia is preparing an investment plan for a coal phaseout by 2030, grid strengthening, new capacities and the just transition of its two coal regions. It signed a joint declaration at COP28 with international financing institutions and development banks on an investment platform worth EUR 3 billion, of which most are planned to be ...

This Eco Green Energy project in Europe involves a 710KW installation on an industrial rooftop in Jegunovce, North Macedonia. The project, completed by our partner KTM Energy Solution, aims to help industrial clients control energy costs and reduce carbon footprints.

The completion date for an upgrade of the Greece-North Macedonia grid interconnection has remained unchanged at 2030. ... The pipeline was developed in 2002 to link the Greek company's Thessaloniki refineries with its OKTA refinery in North Macedonia. In 2013, the Greek energy group decided to change the use of the pipeline for the transport ...

However, the recent agreement reached at the COP28 could accelerate North Macedonia's energy transition. International lenders have announced they will finance a EUR3 billion plan to completely shut down the country's coal-fired power plants by 2030, and replace them with solar, hydro, wind and gas-powered units.

The Government has adopted the new Energy Development Strategy 2020-2040, which targets a coal phase-out by 2025. Thanks to its good climatic characteristics (high density and duration of solar radiation, temperature, humidity, etc.), North Macedonia has a lot of potential for solar energy development.

North Macedonia: Energy Transition and Democracy Srgjan Vidoeski MA in Global Energy Transition and Governance (CIFE, France) MA in Democracy and Human Rights (European Regional Master, BiH) 2021, Sarajevo . 2 Abstract In its latest energy strategy, adopted at the beginning of 2020, North Macedonia projects complete coal and
