# Palestine automated storage

A vertical carousel (VC) is an automated storage and retrieval system that is designed to store inventory while reducing the floor area needed for storage, thanks to its upright and compact structure.. A typical vertical carousel comprises a series of carriers that are securely mounted on a closed-loop vertical track, all enclosed within a metal casing.

Automated warehouse solutions, like automated storage and retrieval systems and automated warehouse pickers, can eliminate manual tasks, such as transporting heavy inventory and manual picking. On the other hand, vertical lift modules can maximize your available warehouse space by taking advantage of your ceiling height. 3.
