machinery customized to maximize efficiency and productivity at your ...

The Casso-Solar Technologies" Infrared Heater Type "FB" is a medium wavelength infrared heater with a woven quartz cloth surface that is finished with a black ceramic coating for high emissivity. The quartz face has the properties of being transparent to the infrared energy generated within the heater module, providing maximum heat ...

Casso-Solar Technologies" Laminated Glass Lines integrate adjustable infrared and convection heating for rapid, uniform bonding across glass types, including Low-E and coated glass. Designed with automated press roller gap settings and quick recipe changeovers, our systems support both autoclave and non-autoclave processing and accommodate ...

This is where Casso-Solar Technologies can help. We specialize in the design and manufacturing of custom infrared (IR) heating systems to meet our customers" needs. Our IR systems are proven to deliver the heat in required wavelengths and minimize the energy consumption in different industrial settings.

Casso-Solar Technologies is one of the leading providers of high-quality infrared heating equipment and systems, and industrial spray coating equipment manufacturers in the U.S. We offer end-to-end services which include design, fabrication, installation, and maintenance. Over the years, we have served numerous clients from diverse of industries.

Casso-Solar Technologies LLC is a leading provider of industrial ovens, infrared heating systems, and custom thermal processing equipment. The company was founded in 2007 and is ...

This allows users of Casso-Solar Technologies and competitive electric infrared heaters to switch to less expensive gas fuel without the need for a completely new installation. For the most precise control of Casso-Solar Technologies Gas Catalytic heaters, closed loop thermocouple feedback control is recommended.  
...

Casso-Solar Technologies" commitment to innovation, quality, and customer satisfaction has established them as a trusted provider of electric heating solutions. Their extensive range of ...

Casso-Solar Technologies offers custom engineered gas and electric infrared ovens, dryers and furnaces, gas and electric infrared heaters, for textile, paint finishing, paper, glass, automotive ...

Casso-Solar Technologies produces industrial process infrared heating equipment customized to fit our customers" needs. See some of the various equipment we can provide in our videos!

Gain insight into glass manufacturing processes and our products. Casso-Solar provides 40 years of expertise in systems used to produce laminated, bent & ballistic glass.
