The energy sobriety movement is catching on, for businesses and cities alike. As people are watching their energy usage, brands are working to normalize and facilitate reduced power consumption. Transitions to more responsible energy consumption will also help to safeguard the future by contributing to keeping global warming under 1.5°C.

Discovering Panama. Every Friday, we have a site visit, which is usually developed around themes of energy and environment. One of my favorite visits so far was to the BIOMUSEO, a science museum in Panama City. I was intrigued by the architecture and designs throughout the museum that represented the geological features of Panama.
