????(?????????: Pitcairn Islands [' p I t k e?r n] [1], Pitcairn Group of Islands )??????????  
?????????????????5?????? ?????????????????????????????? ...

Discovery of Pitcairn Island . Captain Philip Carteret first spotted Pitcairn Island in 1767 but couldn't land due to rough seas. He miscalculated its location, marking it miles away from its true position. Years later, Captain Cook showed some interest, but it wasn't until the Bounty mutineers arrived in 1790 that the island gained attention.

Want to discover things you should know before visiting the Pitcairn Islands? Nestled in the heart of the vast Pacific Ocean, the Pitcairn Islands stand as a testament to pristine beauty and untouched landscapes. Comprising four main islands--Pitcairn, Henderson, Ducie, and Oeno--this remote British Overseas Territory is renowned for its rugged cliffs, turquoise ...

with ...

Various forms of evidence show the earliest settlers of the Pitcairn Islands were Polynesians who occupied Pitcairn and Henderson for several centuries until the islands were abandoned: Henderson most likely before the 16th century and Pitcairn in the 17th or early 18th century. The islands were uninhabited when they were discovered by Europeans.

ADNOC has announced the launch of XRG, a new international investment company specialising in lower-carbon energy and chemicals, with an enterprise value exceeding \$80bn (Dh293.8bn). The company will leverage the growing demand for sustainable energy solutions and chemicals, aligning with global megatrends.

Pitcairn Island, Sept. 3, 1831. ... there was no energy left, and much of the island reverted to natural bush. In 1868, some of the Norfolk Island settlers, including old John Buffett, who was to live to the ripe old age of 93, visited Pitcairn and urged their relatives to rejoin the now wealthier community. But nothing happened except that ...

XRG aims to more than double its asset value over the next decade by capitalising on demand for low-carbon energy and chemicals driven by three megatrends: the transformation of energy, exponential growth of AI, and the rise of emerging economies.
