

Poland greenex energy

EVER GREENEX ENERGY LIMITED was founded in particular to respond to contemporary energy concerns in the Region but beyond that, take the initiative in pioneering the inevitable energy transition that must now become the focus as we set to flip the current energy structure that is fossil fuel based, to the next age sources that are renewables ...

Poland's energy transition is progressing, and 2023 was a year of real records. Although coal remains the main source of electricity production, its share in the mix fell to an all-time low of 60.5%, down 10 p.p. from a year earlier. Production from RES reached 27% for the first time. At the same time, energy production from natural gas ...
