Are battery energy storage systems a viable alternative for Chilean power producers?

With transmission lines at overcapacity and permitting delays slowing the development of new grid infrastructure, battery energy storage systems (BESS) have surged as a profitable alternative for Chilean power producers.

How many Bess projects are there in Chile?

This momentum is reflected in the data: AMI estimates that there is a 7.7 GW pipeline of BESS projects in Chile, far and away the most advanced front of the meter (FTM) storage market in Latin America. Only 505 MW of BESS projects are currently operational in the entire region.

What are ESS solutions for home?

We provide ESS solutions for home including lithium-ion batteries with high capacity. High-quality inverters are also provided to convert the DC power stored in the battery into AC power. The converted power can be used by the home's electrical system.

Why should you choose chisage ESS?
